SYNCARBO 45-35-P

Water based pigment based on high molecular weight technical carbon black for water based paints. Liquid form.

Application in dyeing:

- Emulsion paints,
- Enamels,
- Water based acrylic and latex paints,
- Waterborne lacquers.

Technical data:

Color	Black
Base	Aqueous dispersion of high molecular weight technical carbon black
Physical form	Water dispersion
Density [g/cm ³]	1,30±0,10
Viscosity [mPas]	200-2000
Solids content [%]	About 45

Dosing:

- Recommended: 1 – 12% of paint mass
- Optimal: 4 – 6% of paint mass

Packaging:

- Pallet-container - 1000 kg
- 15 kg packaging (non-returnable)
- 100 kg packaging (non-returnable)
- As agreed with the customer.
